MT ZAO "TREE MONSTERS" 樹氷

Mount Zao is one of the most famous mountain in Yamagata and every winter attract lot of tourists come for ski. Its trees are glazed with ice, becoming "Snow Monsters" during winter. These are very rare sight even in Japan.

OUCHIJUKU 大内宿

Ōuchi-juku was a small post station in Japan's Edo period. It is famous for the numerous traditional thatched buildings from the Edo Period that line its main street

AKABEKO DIY 紅牛

Akabeko is a local "red cow's puppet toy" of the Aizu region. Beko is a dialect means "cattle". DIY to pain the color and draw your own design pattern on this red cow puppet.

AKITA NAIRIKU LINE 秋田縦横鉄道

In winter, through the heavy Akita snowfall, a train makes its way across bridges that span deep valleys and through tunnels that burrow into the heart of the mountains of the region. You may feel as you had stepped into a inkwash painting.

GINZAN ONSEN STREET 银山温泉街

This onsen was made famous by the NHK television drama "Oshin". Antique street lamp along the street and the closely packed wooden inns create a nostalgic atmosphere like the early 1900's. Many people come to enjoy the unique atmosphere all throughout the year.

NEBUTA NO SATO "WARRASE" 燈籠之家

Capture the spirit of the festival and provides a taste of its lively atmosphere, history and traditions. Lanterns in the shape of red goldfish, another symbol of the festival, hang along the corridor where the recorded sounds play. Those lanterns only can found and represent in Aomori.
