

I Unique Singapore

Pulau Ubin - Singapore's 2nd Largest Island

Originally known as Pulau Batu Jubin (Granite Stone Island in Malay), the island's granite quarries once provided the stone used to construct structures like the Istana and the Singapore-Johore Causeway.

Pulau Ubin is a reminiscent of what Singapore was like in the 1960s.

Admire the historical sites, alongside coconut rubber plantations, kelong-houses and Singapore's last-remaining kampong life.

Visit Butterfly Hill and try spotting 140 different types of butterflies! Special plants and flowers were planted in the conservation area to attract butterflies.

Singapore's 1st & Only Floating Kelong Restaurant

A modern kelong in the middle of the sea, next to Pulau Ubin. A picturesque haven, a piece of undisturbed 'land' surrounded by big blue sea, miles away from the hustle and bustle of city life.

Here, becomes one with the nature. You may enjoy fresh seafood and the beautiful coastal lines with cooling sea-breeze.

***A chance to experience "Catch-a-Fish" & take photos with your "Fishy-Catch"!**
